

Sprint #1 Report

SlugMarket

Actions to stop doing:

The team should stop being inconsistent with communication in Discord, because timely responses are essential for coordinating tasks and catching blockers early.

Actions to start doing:

The team should start holding each other accountable for consistent contributions to the product, because inconsistent output across members resulted in a user story not being completed during Sprint 1.

Actions to keep doing:

The team should keep holding regular scrum meetings three times a week (Monday, Wednesday, and Friday at 1pm), because this provides consistent opportunities to sync on progress and catch issues early.
